Holistic Care for your entire Journey.
March 7, 2012

Dear Friends:

It is with great pleasure to extend my warmest welcome to you as you celebrate the fourth annual Keystone Conference, the second largest conference on gender in the United States. This truly impressive accomplishment stands as a testament to your dedication and commitment to the empowerment of all in Pennsylvania. Thank you for all the work you do as a friend, a family member, an advocate and a leader to further acceptance and attain equality for all Pennsylvanians.

As a United States Senator, I am committed to the fight for the equality of all Americans and continue to work to combat bigotry and end discrimination. I firmly believe that the United States Constitution confers rights to all Americans, regardless of their gender identity or sexual orientation. I am a leading advocate in the prevention of bullying in schools, and am the proud sponsor of the Safe Schools Improvement Act. This important legislation would, if enacted, help ensure that every child receives a quality education in a safe and supportive environment regardless of their actual or perceived race, color, national origin, sex, disability, sexual orientation, gender identity or religion.

Once again, I am truly honored and proud to welcome you to this event.

Sincerely,

Robert P. Casey, Jr.
United States Senator

Hungry?
Don’t lose your meal tickets! They are required to gain access to the lunch and dinner events—no exceptions! If you have special dietary restrictions, special meals must be ordered in advance. Special dietary arrangements require a special ticket. Any questions or concerns please contact the Keystone registration desk.

**Thursday Luncheon is located in the Pennsylvania Ballroom across from the hotel’s front desk. All the other meals are located in the Commonwealth Ballroom (Salons A & B).**

Evening Activity Tickets
For those of you who have signed up for our off-site evening activities, please keep these tickets with you. To ensure we have a seat reserved for you on the bus (and at the restaurant) please have your tickets with you before leaving the hotel on Wednesday, Thursday and/or Friday night. Space is limited on the bus and at the restaurants so you must have a ticket.

Donate Your Unused Tickets
If you are not planning on using one of your meal or evening activity tickets, please drop it off at the registration desk so someone else can benefit from it. There are several members of our community who could use a little extra help.

Keystone Vendor Area
Don’t forget to visit our vendor area and take advantage of their products and services. The vendor area is open Thursday, Friday and Saturday from 8:30 am to 4:30 pm.

Buses
Buses leave promptly from the front of the hotel at the time advertised. We will announce the departure in the hotel foyer as well as in the Dog & Pony Lounge. Please help us present a positive image by tipping the bus drivers to our destination as well as back to the hotel.

**Wednesday’s Kick-off Dinner at Mangia Qui leaves at 5:00 pm.**

**Thursday’s casino bus leaves at 6:00 pm. PHOTO ID IS REQUIRED TO ENTER THE CASINO.**

**Friday’s dinner in downtown Harrisburg leaves at 6:30 pm.**

Restrooms
Always use the restroom appropriate to the gender you are presenting AND use it as a person of that birth gender would (Hint: Women always sit down...if you present as a woman, you will, too). Do your business, freshen up and leave—no loitering in the restrooms. DO NOT change clothing in the restrooms—use your hotel room for that, please.
Smoking
The hotel is a non-smoking facility. All smoking must be done outdoors in designated areas. The hotel can impose fines for infractions.

Personal Conduct & Appearance
Participants are expected to dress appropriately for public gathering. Please use common sense and remember that you are representing our community. Formal, semi-formal and business attire are appropriate for Saturday’s Keystone Gala. Those individuals who are disruptive or disorderly may be asked to leave by the conference management team or the hotel staff, no refunds forthcoming. Anyone asked to leave by the hotel security will also be banned from the conference. Please be mindful of the effects of alcohol and drink wisely. Above all, remember: you are a representative of the Trans community, so be a kind, polite and respectful one. Please be courteous of other guests in the hotel.

Photo Policy
Before taking any photos, you must get the permission of anyone you may capture on film or video tape including those in the background. Please respect those that do not desire to have their picture taken. Please no photos during the presentations without the consent of the workshop leader.

ATM
An ATM is located in the hotel gift shop which is next to the hotel’s registration desk.

Need a Quick Start?
The hotel has coffee and ala carte items available in the restaurant from 7:30 am to 9:00 am.

Any Problems?
If you have any problems with another conference attendee, hotel guest, hotel staff or anyone on the property or any other problem at all, contact the conference management staff- they’ll have a red ribbon attached to their badges so you can find them easily. Please be mindful of others in the hotel and show them the respect and courtesy we expect even if they may not treat us with the respect we deserve. Let the hotel staff resolve any problems.

“A Celebration of Gender Diversity!”
### Voice Power Workshop for Women

Lynn Skinner, Professional Voice Coach and Owner of Vocal Eyes Music®

Are you a TG, TS, CD or GG woman who would like to bring more power, confidence and authenticity into your voice? This workshop will show you how to:

- Breathe from a deeper place
- Explore breath as a tool of relaxation and release
- Understand the difference between a big and a full breath
- Use your breath to create a freer, more flexible sound
- Learn to project your voice without forcing it
- Improve your articulation, resonance and consistency
- Build confidence for personal/professional communication
- Experience your feminine power through your voice!

### Transforming Stereotypes

Cynthia DeVille, Transgender Entrepreneur, Activist and Speaker

An introspective look at the stereotype of transgender from both the perspective of a transgender individual and from those who are not. Examines the lives of transgender people by highlighting some of the key findings of the survey conducted by the National Gay and Lesbian Task Force in conjunction with The National Center for Transgender Equality titled "Injustice at Every Turn", illustrated by experiences of my personal journey. This presentation will take you on the journey of transition in Appalachia through the eyes of a transgender woman. It examines transgender definitions and highlights the adversity and challenges that many face along the way in their quest to live genuine. The message of hope and perseverance rings true throughout this presentation that is informative, funny, heart wrenching at times and extremely inspiring.

### Contemplating a Transgender God

Rev. Michael Johnson

A conversation about the gender diverse nature of God and the revelatory nature of a diverse community to the world.

### Transgender Personalities in History

Melissa Morton

This is a three-part presentation. First, an overview of prominent transgender persons in history, from Zheng He to Chevalier D'eon. Second, a description and brief dramatization of the life and exploits of Civil War soldier and spy Sarah Emma Edmonds, who as a woman pretending to be a man became a man pretending to be a woman. Third, stories and opportunities for enjoyment and fulfillment as an historical reenactment crossdresser, with an emphasis on the Victorian era.

### Navigating Health Challenges, Needs & Access

Cassandra Weber, CRNP, of Alder Health Services

The transgendered community faces unique health challenges, has distinct health needs and often has trouble finding access to caring and competent health care. This workshop will discuss trans wellness, communication with health care providers and how to find a health care provider you are comfortable with to receive the health care you need.

The Woman You Always Were - Finding your Feminine Style
Kate Cartmell, Be Image Consulting

Just like any girl growing up, whether you know it or not your sense of self was formed by watching the women around you. Years of watching, learning and emulating made some of those women your role models. It may be your mother, an aunt, a sister, a boss, a friend, or even a movie character. Your role models hold keys to your personal style ~ that person you’re trying to reflect through what you wear. Finding that fundamental style will help you build a chic, workable wardrobe that gives you confidence ~ because it truly reflects you. In this interactive workshop, we’ll help you discover those influences which, when distilled and applied, communicate to the world who you really are. Then, we’ll demystify the art of dressing well – focusing on dressing for our real age. Many of us come into our own in our “second act,” and we want – and need -- to look chic, vibrant and always appropriate. At the same time, by dressing well we can actually appear younger! Finally, we can truly embrace being the age we are, beautifully.

"Senior" Cross Dressers--The Problems & The Promise
Dana Pointe

The young, newly self-discovered cross dresser looks in the mirror and sees both the promise for the future and problems to be encountered. The "senior" cross dresser looks in the mirror and sees things in a somewhat different light. Now the problems of aging outweigh the promises of the future. Yet, this is a topic that is rarely discussed. This workshop will bring together CDs who are willing to share some of the adventures of their journeys through life reassuring participants that they are not alone in their fears and concerns for the future. Topics will include health issues, sexuality, fashion, economics, personal relationships, family and friends. In the end, though, the promise for the future is bright. While new challenges may present themselves, a lifetime of experience helps to pave the way for meeting these problems head-on and overcoming them with grace and dignity.

Thursday 1:45 pm

From Bristly to Smooth: Removing Unwanted Hair with Electrolysis
James W. Walker, VII, Director of Executive Clearance Electrolysis

Topics of discussion will include full beard clearance, and the fastest plan of action to get to the fully clear skin that will allow one to present in public with no makeup and appear to be just another girl walking around with nothing but eye-liner and lipstick. Additional topics will be hair growth cycles, hair removal options, and skin care during hair removal treatment.

Not Only Head & Body, But Heart & Spirit
Dr. Ken Dollarhide, Dean & Professor of Philosophy at Kean University

In this workshop we will be looking at the spiritual nature of transitioning rather than the psychological or medical “condition” of transitioning. The thesis of the workshop is quite simple: being transgender may not be primarily a psychological nor a medical phenomenon but primarily a spiritual journey and awakening and what needs to be understood is the heart and soul and only after this the head and body need be treated.

The Woman You Always Were – Dressing Well for Who You Are Now
Kate Cartmell, Be Image Consulting

By now, you’ve probably learned to dress in a consistent and age-appropriate style that makes you feel comfortable. In this workshop, we will explore the details that truly make your clothing fit well, present you at your very best and support your individual sense of style. One special focus will be looking current and on trend. Being -- and looking -- youthful in spirit is not a luxury. Today’s job market and workplace require a hip, flexible outlook – and a hip, age-appropriate wardrobe that communicates your spirit. What you’ll learn:

- **Balance and Line** ~ For many, our bodies have unique proportions that will never align with standard measurements. So, you’ll learn to create your own rules, ones that work for your body ~ from head to toe ~ to create balance and flattering proportion in your clothes.
- **Fit** ~ Dressing to fit your real body requires a few tricks, using tools that are many women’s best kept secrets. Learn them to look great, current and more youthful, too.
- **Details** ~ You’ll learn how to assess your assets ~ and what you want to play down. Learn to shop with confidence knowing what colors, fabrics, necklines, sleeves, lengths and accessories work for you. Putting it Together ~ You’ll learn how to feel truly confident in any setting, knowing that you fit in, yet stand out with vibrancy, with a style that is uniquely you.

Anti-Bullying & Self Defense for Trans Youth & Adults
Deeanne Colwell

A practical presentation for dealing with confrontations, both non-violent to violent. The programs works for kids and adults, male or female. We will deal with setting personal boundaries, self-defense techniques and basic skills to live as positive trans-people! This presentation will be interactive and open to all ages. Please wear comfortable clothes!

Thursday 3:15 pm

You've Transitioned...Now What?
Dr. David Baker-Hargrove, psychotherapist of BHC Assessment & Consulting

People often invest so many years and so much energy into their transition, transitioning becomes a huge part of their identity and who they are. This can leave people post-transition, feeling confused, lost, and wondering what to do with the rest of their lives. This seminar will explore the psychological and emotional components of “transition identity”, how to move beyond this emotional phase, and help participants develop ideas for living their best lives post transition with meaning and purpose.

Wig Selection, Style & Care
Donna Miller, owner of Donna's Hair Studio

Complete analysis on proper wig selection for the CD/TG/TS community. Advice on style selection, color, size and care for your wig. Show the world the woman you know you can be!

Writing Transgender Fiction: Releasing Your Inner Person
Sophie Lynne, English Teacher and Author

Transgender fiction is a genre unto itself. But did you also know that writing can be therapeutic? Commit that inner person onto paper and feel the release! I’ll give you some tools to do it. Talent not required, only a positive attitude and willingness to have fun!

**Friday 9:00 am**

**GRS: FTM & MTF Current Surgical Perspectives & Innovations**
Dr. Marci L. Bowers, MD

This program is designed to help participants gain knowledge of Dr. Bowers’ current MTF and FTM techniques, as well as her relocation to San Mateo, CA. For MTF patients she will talk about her one-stage vaginoplasty procedure. She will familiarize participants with her procedures as well as show examples of recent outcomes. Participants will also be informed of auxiliary MTF surgical offerings (such as tracheal shave and labiaplasty). For FTM patients Dr. Bowers will discuss some of the current dilemmas for FTM’s. She will provide information regarding hysterectomy and metoidioplasty as well as ring metoidioplasty (metoidioplasty with urethral lengthening). Dr. Bowers will answer specific questions after her power point presentation. For the presentation, she will need a DLP projector and power point connection.

**Feminizing the Male Face without Surgery**
Amanda Richards of True Colors Make-Up Artistry

I will cover makeup application techniques to bring out the female in any male. This will include, foundation application, enhancing the shape of your face with contouring and highlighting, eye shadow application, including how to do a smoky eye, and how to get that pouty looking lip. Attendees should bring their pad and paper to take notes, and I will answer any questions throughout the presentation.

The workshop will explore the medical care for transgender youth—including children, teens and young adults. We will go over the evaluation of children and teenagers who are transgender and then review the most up-to-date treatment recommendation to include the guidelines for hormone replacement therapy for teenagers. We will examine several case samples and discuss the many complex medical, psychological and social issues that are involved. At the completion of this session the participant should be able to:

- Review the theories about the biological causes of transgender feelings and the controversies regarding the psychiatric criteria and diagnosis
- Describe evaluation of children, teens and young adults with transgender feelings
- Discuss the treatment options and protocols

Topics will include:

- The Benefits of Wearing a Corset
- Picking the Correct Corset
- Which Corsets to Avoid
- How to Lace Yourself into a Corset by Yourself
- Custom Corsets

Participants are invited to bring their current shape wear with them for evaluation and/or guidance.

The trans journey requires a tremendous amount of self-focus in order to navigate its twists and turns. Your relationships with friends and loved ones can ease the pain of traveling this path alone, but sometimes it can be hard to remember to nurture these connections. This workshop will focus on exploring the challenges participants have faced in navigating relationships during the trans journey.
Friday 10:30 am

Surgical Refinements for Transgender Patients
Dr. Joel Beck, Board Certified Plastic Surgeon of the Bay Area Aesthetic Surgery Center

During Dr. Beck’s lecture, you will be introduced to key points in his philosophy and care of the transgender patient. By knowing the typical differences between the male and female bony structures of the face, you will learn and become more familiar with surgical procedures that will soften, feminize and enhance your natural beauty. Taking advantage of one’s facial assets, allows the patient to retain a sense of self while femininity is obtained. Dr. Beck understands that each individual has different aesthetic desires and is able to work with the patient to develop a personalized individual surgical plan that fits the patient's lifestyle. Because of Dr. Beck's complex surgical training, more advanced surgical manipulation can also be obtained in those who need more aggressive changes to the face and body. Our Bay Area facility is an international hub for Feminization and Masculinization surgery. With Dr. Marci Bowers, the two surgeons are at the forefront of holistic care for the transgender individuals. This will be touched on in addition to presenting before and after photos.

The Transgender Continuum
Cerise Richards, MD, FACS, Former Chief of Urology at the DC Veterans Affairs Medical Center

A continuum is anything that goes through a gradual transition from one condition, to a different condition, without any abrupt changes. Dr. Richards postulates that a Transgender Continuum of Gender Identity from very male to very female does exist with Transgenders, both MTF and FTM, positioned “in between” what was previously a dichotomy of just Male or Female. She will show that Transgenders are genetically unique individuals each possessing a commonality of having both male and female gender identities at the same time with a predominance of attributes of the opposite gender to which they were assigned at birth. They are not simply an extension of the Male and Female dichotomy called bi-gendered, but a complex of multiple genders woven into a unique Transgender individual. For the most part, we sit at a single point on the TG road of life and view the world from our personal experience and perspective. How far we can see ahead down the Transgender Road is individual and varies from person to person. We each occupy our place on the TG Continuum separated by our TIME on this path, but connected by our DIRECTION OR GRAVITATION towards the opposite gender of that assigned to us at birth. Transgender Identity, present at birth, progresses to TV, CD, TG, and TS. They are all behavioral stages experienced by the same person, just at different points on the Continuum of Time. Dr. Richards will discuss the scientific basis for what she says.

Relationship Priorities – Languaging and Negotiation: An Approach to Keeping the Relationship Together While Transitioning
Jude & Susan Bienvenu

Discussions often focus on the needs of the transitioning transgender individual, somewhat exclusive to the needs of the relationship with a partner. This course will turn the focus to the relationship between the transgender person and their spouse. Transition is a very difficult time for a couple, and frequently leads to the loss of the relationship. We do not believe this has to be the inevitable outcome, and hope to offer our experiences in the hope that others can find them useful. We discuss aspects such as “couples transition,” and skills in languaging and negotiation. These approaches are proven techniques in couples counseling, and have helped us tremendously in our journey through Jude’s transition. Come join us for discussions and exercises that can help bring a new understanding to the power of language and negotiation.

Following will be a question and answer with a real live Seminarian. Questions and hardships seen through the lens of a genderqueer lesbian living life out in a Lutheran Seminary.
Model Policy for Transgender & Gender Non-Conforming Students
Mara Keisling, Executive Director of the National Center for Transgender Equality

A joint project of NCTE & GLSEN (National Center for Transgender Equality & The Gay & Lesbian Student Education Network), the purpose of this policy is to foster an educational environment that is safe and free from discrimination for all students, regardless of sex, sexual orientation, gender identity, or gender expression, and to facilitate compliance with local, state and federal laws concerning bullying, harassment and discrimination. Mara Keisling, Executive Director of NCTE, explains the policy, its necessity and its implementation.

Friday 11:00 am

Book Signing "The Lives of Transgender People"
with author Dr. Susan Rankin, Associate Professor; Education Policy Studies Penn State

Responding to a critical need for greater perspectives on transgender life in the United States, Genny Beemyn and Susan (Sue) Rankin apply their extensive expertise to a groundbreaking survey—one of the largest ever conducted in the U.S.—on gender development and identity-making among transsexual women, transsexual men, crossdressers, and genderqueer individuals. With nearly 3,500 participants, the survey is remarkably diverse, and with more than 400 followup interviews, the data offers limitless opportunities for research and interpretation.

Facial Feminization Surgery (FFS): Options & Results
by Dr. Sherman Leis, Director of the Philadelphia Center for Transgender Surgery

Utilizing power point, Dr. Leis will demonstrate and explain classic prototypes of masculine and feminine facial features. He will discuss a variety of options for feminizing facial features and demonstrate that in the majority of cases, excellent results can be obtained without extensive, expensive, and high risk craniofacial surgery. Several cases are shown demonstrating excellent natural results from selective and customized facial feminization procedures.

Communication & Negotiation with Significant Others around Transgender Expression
by Dr. Maureen Osborne, Gender Psychologist

The didactic portion of this workshop will present a general framework for viewing the range of problems experienced by couples with a transgender partner. It will introduce basic principles of dialogue and negotiation with special emphasis on the challenges arising from the trans partner's need to engage in cross-gendered expression as a way of finding personal comfort and authenticity, and its impact on the SO. The interactive portion will invite attendees to share the problems they experience in their own relationships and learn ways to address them.

Keystone Reception
in the Hotel Assembly Area with Classical Guitarist Crystal Thorne

Come join us for Friday's cocktail reception held in in the Assembly Area overlooking the beautiful city of Harrisburg. Our very own Crystal Thorne will serenade us as we enjoy some social time prior to departing for our dining out in downtown Harrisburg.
Friday 5:00 pm

'Date of Your Dreams' Auction (see ad on page 28)
During the Keystone Reception

In the midst of the cocktail hour, the Keystone Conference, with the help of the LGBT Center of Central Pennsylvania, is delighted to present the Third Annual Charity Raffle & 'Date of Your Dreams' Auction to benefit Common Roads, the Center's youth program.

So many of us have attended gender conferences and charity balls all glammed up, dressed to impress only to dine and spend the evening alone. Well, that doesn't happen at the Keystone Conference! Here is your chance to bid on the Date of Your Dreams! Our emcee will be presenting for live bid a selection of handsome and beautiful people (remember this is a gender conference!) that will be your date for Saturday's Gala Dinner & Dance to their highest bidder. On Saturday, your date will arrive at your door, in elegant attire, to escort you to dinner and will be your companion for the evening's festivities. How sweet can it be!

Our bachelor & bachelorette volunteers are members of the LGBT Center of Central PA, and other LGBT organizations in the midstate area and are delighted to take part in this enjoyable affair. All proceeds from Date of Your Dreams will be considered donations to Common Roads and are fully tax deductible to the extent of IRS tax law.

Friday 6:00 pm

Reception for Family/Friends of LGBTQIA Youth & Allies

If you are a family member or friend of a LGBTQIA youth, this is a time to meet others like yourself, network and express your feelings in an environment of friendship. Come and share your successes and challenges that both you and your loved one have faced so others may learn and grow. This reception will be held in the Private Dining Room of the Dog & Pony Restaurant and Lounge. So please stop by and visit, take part in the discussion and meet some new friends. There is no cost and is open to everyone!
With a number of people electing to go to Thailand, Mexico, Serbia and a dozen other countries for their GRS, many questions about the doctors, facilities, quality of care and cultural experiences arise. Join us for an open discussion where several of those who have experienced overseas GRS are going to share their experiences with those who are considering it. Pamela H. will moderate this discussion for those who are interested in hearing first hand the experiences of overseas GRS.

Tucson-based songwriter Namoli Brennet has been touring the country with her own brand of moody and inspiring folk music since releasing her first CD in 2002. Touching on often poignant themes, her music and lyrics ultimately paint a vivid and redemptive portrait. She’s a breathtaking and moving performer, and her sweet, road-weary voice is as quick to deliver her wit and humor as it is a turn of phrase. She’s been described as a cross between Lucinda Williams, Patty Griffin and Sheryl Crow, and Zocalo magazine called her music, "Gorgeous and introspective."

Although she’s a little shy and reluctant to talk about it, Brennet also carries another secret: she was not born female. “I transitioned in my late 20s because I had just reached this state of unhappiness that was pretty unbearable.” And although the themes of identity and freedom weave their way subtly through her songs, being transgender is not the focus of her music: “I know it’s kind of a quirky and interesting part of my story, but as a human being I'm interested in life, spirituality, meaning, social issues, justice, compassion...and these are the things I write about.”

Her music has been featured on NPR, PBS and in films including the Emmy-award winning documentary "Out in the Silence", which details the struggle of a gay teen growing up in rural Pennsylvania.)
The Keystone Conference—with the help of TransCentralPA & the LGBT Center of Central PA—is delighted to present the **Date of Your Dreams** event for your pleasure, and to raise funds to benefit Common Roads, the youth program of the LGBT Center of Central Pennsylvania.

So many of us have attended many a glam dinner dance at gender conferences and formal charity balls, dressed to impress, and then dined & spent the evening alone. That’s not going to happen at the Keystone Conference 2012! You’ll be sure to be on time to the cocktail reception Friday night prior to our dining out on Restaurant Row, because you won’t want to miss your chance to bid on the **Date of Your Dreams**! At 5:00PM in the midst of the Keystone Reception our emcee & auctioneer Rachel will be presenting for live bid a selection of handsome and beautiful (remember- this is a gender conference!) gentlemen & ladies that will be the date for the formal dinner dance on Saturday night to their highest bidder. Saturday 9:00 am

MTF Top & Bottom Surgery: How It's Done at the Philadelphia Center for Transgender Surgery
Director of the Philadelphia Center for Transgender Surgery

Multiple options for breast augmentation will be discussed and demonstrated including choice of incisions, shape and size of implant, saline versus silicone, placement of implants above or below the muscle, etc. Dr. Leis will also discuss his technique of one-stage vaginoplasty utilizing the penile inversion technique, neo-clitoris construction, and scrotal skin graft to increase vaginal depth. Multiple recent cases will be demonstrated to show the natural results obtained with these techniques.

Surgical Refinements for Transgender Patients
by Dr. Joel Beck, Board Certified Plastic Surgeon of the Bay Area Aesthetic Surgery Center

During Dr. Beck's lecture, you will be introduced to key points in his philosophy and care of the transgender patient. By knowing the typical differences between the male and female bony structures of the face, you will learn and become more familiar with surgical procedures that will soften, feminize and enhance your natural beauty. Taking advantage of one's facial assets, allows the patient to retain a sense of self while femininity is obtained. Dr. Beck understands that each individual has different aesthetic desires and is able to work with the patient to develop a personalized individual surgical plan that fits the patient's lifestyle. Because of Dr. Beck’s complex surgical training, more advanced surgical manipulation can also be obtained in those who need more aggressive changes to the face and body. Our Bay Area facility is an international hub for Feminization and Masculinization surgery. With Dr. Marci Bowers, the two surgeons are at the forefront of holistic care for the transgender individuals. This will be touched on in addition to presenting before and after photos.

Masculinization of the Face in the FTM
Dr. Douglas Ousterhout, MD, DDS, FACS

Your desires for being recognized without question as a male can be assisted by looking more masculine. Perhaps you would like to appear masculine without the need for a mustache or beard. I will be presenting my experience in improving the facial masculine appearance in over 80 males. I will be addressing those areas that differentiate a female skull and face from that of a male. Pre and postoperative results will be shown of representative surgeries as well as a few who have had several areas addressed to further their masculinity. Private consultation will be available after the presentation for those possibly interested in such surgery.

Transgender Youth Policy Workshop
Jason Landau Goodman, Executive Director Pennsylvania Student Equality Coalition
Adam Leahy

What are transgender and gender variant youth issues in school? Participants will work together to create real-like scenarios of struggles facing transgender youth and learn how to advocate and create safe spaces for everyone. The session will include a policy briefing on issues facing transgender youth in PA.

Sex, Love & Changing Bodies
Dr. Michele Angello, Transgender Therapist and Certified Clinical Sexologist

A frank discussion in a safe environment about sexual issues for transgender-identifying people, with a focus on the changing responses in a transitioning body.

Power of Secrets
Alexis Lake, MSS, LSW of Alexis Lake Therapy

The goal of this interactive presentation is to help professional counselors, and the people they serve, better understand the extraordinary power of the secrets their transgendered or gender variant clients have held so tightly for so long. Counselors will better understand the honor and importance of hearing these stories (often for the first time) as well as learning how to help their clients understand when it would be appropriate to tell others and how to best share those secrets. The people who have been secret holders will learn healthy ways to tell others and, if they are comfortable doing so, share their stories with seminar participants about what worked and what didn’t work when they told others their own secrets.

Because of social myths about gender, transgender people face many issues, from unemployment to homelessness to acts of violence. By educating ourselves and others, Equality Pennsylvania fights for the right to live openly without fear of abuse or discrimination. Equality Pennsylvania is devoted to ending discrimination and violence against transgender people through education and advocacy on state and local issues of importance to transgender people. By empowering transgender individuals and rallying our allies to educate and influence policymakers and others, Equality Pennsylvania offers a strong and clear voice for transgender equality.

## Saturday 10:30 am

**Get Real! Surgical Information for Trans Women (Interactive Lecture)**  
Dr. Christine McGinn of the Papillon Gender Wellness Center

Not your average surgery pitch. A frank discussion about preparing for and recovering from gender confirmation surgeries...no matter who the surgeon. This talk will cover choosing a surgeon, pre-operative advice, realistic post-operative expectations, pitfalls, and sexual response. Dr. McGinn will also discuss the offerings of Papillon Center and results.

**FTM Genital Reconstruction & Chest Surgery**  
Dr. Toby Meltzer, Plastic and Reconstructive Surgeon

FTM Genital Reconstruction and Chest Surgery via a PowerPoint Presentation showing current techniques and before and after photos. He will be available for questions and answers directly after his lecture and will be available for private visits at other times during the conference.

**Science, Gender Identity & Legitimacy**  
Dr. Rachel Levin, Associate Professor of Biology and Neuroscience at Pomona College

The relationship between scientific research, medicine and gender identity is complex. Many look to science to validate transgender identity. Why give science the power to legitimize who you know yourself to be? In this workshop, we will examine recent research on gender identity, its assumptions and limitations, how results are interpreted and how this information is used. We will end with a discussion of new approaches, new interpretations and new data.

**My Significant Other is Trans...!**  
Panel Discussion

This participatory workshop will explore issues faced by couples--married or otherwise--that contain one transgender partner. We'll try to learn what techniques and methods can help committed relationships survive the "T storm".

**Unique Issues for Trans-Youth**  
Dr. Michele Angello Transgender Therapist and Certified Clinical Sexologist

Adolescence is tough enough without dealing with gender variance! Youth and the parents of gender non-conforming young people are invited to participate in this dynamic discussion about some of the systemic variables to consider when dealing with being trans and being a minor. Issues regarding dealing with doctors, schools, places of worship, relationships and extended family will be discussed during this workshop. You are invited to bring your own experiences as well as your questions.

**We Will Be Free: Legal Developments on the Path to Transgender Rights**  
Michael D. Silverman, Executive Director of the Transgender Legal Defense and Education Fund

In his address, Michael will discuss legal strategies for moving a transgender equal rights agenda forward. From employment discrimination to educational and health care access, the legal landscape is shifting. We've made progress over the past years, but there is much more to be done. How can we use the law as a tool to ensure that we will one day be free?

## Saturday 1:45 pm

**Post-Op Depression Following Gender Confirming Surgery (Interactive Lecture)**  
Dr. Christine McGinn of the Papillon Gender Wellness Center

Many postoperative trans women and some trans men experience some degree of mood fluctuation following gender confirmation surgery. The severity can range from mild to severe. This talk discusses the science behind the symptoms and why certain interventions work better than others. We will discuss strategies of assessing depressive risk and targeting preventive therapies to improve overall outcomes.

"A Celebration of Gender Diversity!"
The Quest: Balancing the Gift of Both Genders
Jeanine Ruhsam, President of TransCentralPA

This participatory workshop explores the philosophical, historical and spiritual reality of those of us who are neither men, nor women…but both. While we usually refer to ourselves as Transgender, and while we conform to the gender binary in our need to survive financially and socially, we truly are both/and, not either/or.

Telling Your Children
Alexis Lake, LSW of Alexis Lake Therapy
Dr. Maureen Osborne, Gender Psychologist

There are many factors to consider in coming out to your children as a transgender parent. First, do they need to know at all, if you are not publicly transitioning? Of course, there are the how, when and where issues, not to mention the developmental level of the kids in question, and the knowledge/support of their other parent. These factors will all be addressed in this workshop. The more elusive aspects we want to challenge you to think about are your own level of comfort with yourself and your existing relationships with your children. What are your goals? What do you want them to feel and to understand about this part of you? How can you help them to feel safe and loved through this transition in your family? We will go over some basic recommendations to keep in mind, but also invite you to ask your own questions and share your personal experiences with telling your children - your successes, disasters, and everything in between.

The Bible—Trans Friendly or Trans Foe?
Joanne Bennett
David Garrett

The Bible is much more than a collection of “Thou Shalts” and “Thou Shalt Nots.” It is the history of God reaching out to the lost and lonely. The question we face here is: Does God also reach out to those who are transgendered? This comprehensive overview of the Bible will provide some answers.

Transgender Medicine & Hormonal Treatment for Transgender People
Dr. Rachel Levine, Chief of Adolescent Medicine and Eating Disorders, Hershey Medical Center

The workshop will explore the issues in transgender medicine. It will include a didactic presentation with numerous case examples and a discussion of the medical evaluation and hormonal treatment for both male to female and female to male individuals. At the completion of this session the participant should be able to:

- Describe medical evaluation for transgender individuals
- Discuss the hormonal treatment options and protocols

Employment, Transition(ing)& You
James MacGregor Halleman

Coming out to your employer, or getting the new position. The application process, the interview process what your answers on employment applications may tell prospective employers about you. Tidbits and tips to consider and sharing of stories about the workplace. Workshop focus on sharing stories and brainstorming about how to be a better informed employment candidate. Sharing your stories about workplace situations.

Spouse & Significant Other Sanctuary
hosted by Susan & Julia

The "Spouse & Significant Other Sanctuary" is for genetic female wives and girl friends of transgender partners ONLY. It is a place where you, the wife or girl friend, can speak freely, from any point of view. Yes, the two women moderating discussions are long-times wives of transgender spouses, but we completely *get* how bewildering it can be, dealing with all the issues that can arise. We will be there for YOU........whatever you have felt, we get it, and have probably been there. Susan, on Friday, and Julia, on Saturday, look forward to helping you realize you are NOT alone, and that this is a life that can be very satisfying and intimate, when partners work together to create loving relationships.

### Saturday 3:15 pm

#### Get Real! Surgical Information for Trans Men (Interactive Lecture)
**Dr. Christine McGinn of the Papillon Gender Wellness Center**

Not your average surgery pitch. A frank discussion about preparing for and recovering from gender confirmation surgeries...no matter who the surgeon. This talk will cover choosing a surgeon, pre-operative advice, realistic post-operative expectations, pitfalls, and sexual response. Topics include urethral extension, metoidioplasty, phalloplasty, testicular implants, scrotoplasty, chest surgery, body contouring, and coordinating hysterectomy with other surgeries. Dr. McGinn will also discuss the offerings of Papillon Center and results.

#### Changing Male to Female Pitch, Feminization Laryngoplasty
**Dr. James P Thomas, The Voice Doctor**

Feminization Laryngoplasty (FemLar) is a type of vocal cord (laryngeal) surgery designed to obtain a more feminine sounding voice in the male to female transgender patient. Several types of procedures target the frequency or pitch of the resting speaking voice to some degree. Feminization Laryngoplasty changes the pitch as well as some of the resonance characteristics of the speaking voice by changing the configuration of the vocal tract and not just the vocal cords themselves. Vocal cord tuning performed with a KTP Laser will be discussed.

#### Untangling and Reworking Emotional Complexes in Transgender Clients
**Dr. Maureen Osborne, Gender Psychologist**

The emotional consequences of trying to live one's life in a gender that does not entirely "fit" can range from mildly uncomfortable to overwhelming and debilitating. Not all trans clients experience mental health problems, but this presentation will cover some common psychological issues (e.g., guilt and shame, anger, anxiety, depression, social isolation) that present themselves in the therapy setting and suggest ways to work with trans clients struggling with them. The presenter's contextual therapy framework applies a family systems and resource-based approach.

#### Facial Feminization Surgery
**Dr. Douglas Ousterhout, MD, DDS, FACS**

Dr Ousterhout will present his philosophy regarding facial feminization based on the anatomical differences between the male and female skulls. There will be discussions also about soft tissue surgery such as facelifts, breast augmentations, etc. Photographic results of pre and post surgery patients will be shown. Dr Ousterhout will be available after the presentation for private consultations.

#### Making Your Transition Terrific!
**Caroline Temmermand**

This course is for anyone who is considering transition to full time. Topics discussed will include: Creating an individual and comprehensive plan for transition that broadly covers medical, social, workplace, legal, personal and family needs during a transition. Understanding and creating reasonable timelines. Communicating with others and then implementing your plan. Remember - one size does not fit all! Tips on changing your name and how you might not need to advertise a name change in a local paper, even in places that typically require it. How to stay supported during the transition. How not to be surprised by the support you may receive and you might maximize that support for your benefit. How to be aware of things that may cause difficulties and how to minimize them.

#### The Whole Picture: Putting It All Together
**A Panel Presentation Chaired by Dr. Joel Beck, Board Certified Plastic Surgeon of the Bay Area Aesthetic Surgery Center**

This workshop deals with assembling & choosing between the many disciplines, efforts and procedures available when one is transitioning from one gender presentation to another. The panel will consist of a multi-faceted team of experts on plastic surgery, medications & hormones, voice, image, family & workplace issues and practical and spiritual ramifications. This is intended to be a helpful summary from the macro view of the many workshops presented at the Keystone Conference 2012.

“A Celebration of Gender Diversity!”
Jamison Green
President of the Board of Directors of the World Professional Association for Transgender Health (WPATH)

Jamison Green is one of the most accomplished contributors to the contemporary transgender movement for health, civil rights, social safety, dignity and respect for gender-variant people. He is a writer and educator, born and raised in Oakland, California (1948). He holds both a BA and MFA in English from the University of Oregon. In 2011 he completed the requirements for a PhD from Manchester Metropolitan University School of Law (England). He is the 8th person in the world to earn a PhD in Law with a focus on transsexual and transgender issues.

In 1994, he authored the landmark document “Report on Discrimination Against Transgendered People” for the San Francisco Human Rights Commission, which served as the foundation for the establishment of protective legislation in the City and County of San Francisco, and specified much of the agenda for the contemporary transgender movement. He developed the curriculum on transgender sensitivity training that has been used since 1995 at the San Francisco Police Academy, and which has been adapted for use in other cities.

Jamison began his transition from female to male in 1988 while employed as an engineering group manager at Sun Microsystems, Inc. Since 1996 he has received awards of distinction from all of the largest, established transgender organizations in the U.S., and was the first trans man to receive the Distinguished Service Award from the Association of Gay & Lesbian Psychiatrists for his contributions to LGBT mental health (May 2009), and the first trans man to receive the Transgender Advocate award from the National LGBT Bar Association for his contributions to legislative advocacy and litigation strategy on behalf of trans people worldwide (August 2009). In that same year, he also received the Vanguard Award from the Transgender Law Center in San Francisco “for leading when no one else did.” He has mentored scores of trans activists, and serves as a role model for hundreds, if not thousands, of trans people and their families around the world. He is also a well published writer; his book, Becoming a Visible Man won the Silvia Rivera Prize for Best Book in Transgender Studies (2005), and it is used as a text in numerous universities.

Dr. Green currently works part time as a Trans Health Policy Analyst for the Center of Excellence for Transgender Health in the Department of Family & Community Medicine at the University of California, San Francisco, and he is also president of his own small consulting firm, Jamison Green & Associates, which specializes in training and policy consulting on transsexual and transgender issues with businesses, governmental bodies, diverse professional associations, and educational institutions. He presently serves as the President of the board of directors of the World Professional Association for Transgender Health (WPATH), and volunteers with several other nonprofit educational organizations, including Out & Equal Workplace Advocates, and the Transgender Law & Policy Institute.

“**A Celebration of Gender Diversity!”**
Fantasia Fair is the longest-running annual trans event in the world. Held each year in the LGBT resort town of Provincetown, MA., this event is a full immersion experience. Attendees can, and usually do, spend the entire week presenting their gender as they wish. It is often said that "a week at Fantasia Fair is as close to living fulltime without actually going fulltime."

With everything you get, Fantasia Fair is an exceptional value. There are no hidden fees - everything is included in the registration. The week-long package includes over 60 workshops, daily keynote addresses, special sessions for partners and couples, cocktail parties, seven daily lunches/brunches, fashion show, the Fantasia Fair Follies, and not just one but TWO formal banquets!

There are discounts for early registration and reduced rates for partners. Check out the Fantasia Fair website for information on scholarships, discounts on lodging, and how to subscribe to our monthly newsletter.

There is a reason why Fantasia Fair has been around for more than 36 years, and why people return to it year-after-year.

Come experience the experience.
